

Armor USA INC

StabArmor™ Stab-Resistant Body Armor

StabArmor™ is made of lightweight metal flakes which are cross-linked with our patent pending Matrix Overlapping Technology, with which pieces of hard metal flakes are linked to form a flexible and lightweight panel which can provide combined protection against energetic stab attacks, from sharp knives and edged blades, to penetrative spikes and needles.

Stab Protection:

- KR1
- KR2
- KR3

Spike Protection:

- SP1
- SP2
- SP3

Our panels provide KR2 + SP2 and KR3 + SP3

StabArmor™ can be incorporated with our Ballistic Panels in any of our vests to provide dual purpose armor.
